

Exceptional Solutions with Proven Results

With the excellence that is our namesake, Superlative Technologies, Inc. (dba SuprTEK) offers customers the highest quality, transformational services through responsive, creative, and innovative solutions that address all core IT competency areas. A DISA SETI Contract Holder, we deliver *exceptional solutions with proven results* for more than 800 enterprise applications/systems, and broad IT needs for more than 500,000 end users to 5M end-points worldwide. We perform CyberNetOps Design Deploy Sustain support and Global Video Service support for the Defense Information Systems Network (DISN).

Superlative Technologies means: Innovative Solutions via ASCEND such as our three (3) DevSecOps factories supporting over 600 DoD-wide applications (via 60,000 ft² Software Centers); Stitch-in-Time, a clinical system to improve daily patient care; and ARES and PanOptes®, Big Data solutions that fight against ever-increasing cyber threats. Superlative Technologies means: Enterprise Service Solutions that achieve 99.9+% customer satisfaction year after year. Superlative Technologies means: Agile Innovations delivered through the Superlative Technology Innovation Center (STIC), a 4,500 ft² technology R&D lab; the Superlative Agile Solution Center (SAS-C), a 14,000 ft² facility with more than 300 Agile solution engineers; and the Advanced Technology Group (ATG), our team with underlying deep expertise to rapidly conceive, build, and deliver a broad array of innovative solutions.

SPECIALTIES

- Cyber Security Solutions
- Enterprise IT Solutions
- Solution Engineering and Delivery
- Healthcare IT Solutions
- Strategic Business and Innovation Consulting

OUR CUSTOMERS

Cyber Security Solutions

- Technology Evaluation/Analysis
- Cyber Innovation via SuprTEK ASCEND
- Security Policy, Standards, and Guidance
- Security Architecture and DevSecOps Engineering
- Compliance and Vulnerability Management
- Cyber (Risk and Vulnerability) Assessment
- RMF A&A, Audit, and Continuous ATO
- CND and Security Operations
- Mobile and Wireless Security
- Continuous Monitoring and Risk Scoring
- Cyber Analytics and Big Data
- JIE/JRSS Engineering and Training

Enterprise IT Solutions

- Managed IT Services
- ITIL-based IT Service Management
- Cloud Computing, Migration, and Virtualization
- Telecommunications Engineering
- Element Management Systems Support
- Network Management and Operations
- Software Defined Network (SDN)
- System/Database Engineering and Administration
- DevSecOps Engineering
- Global Videoconferencing Support
- Predictive Analytics & Big Data Solutions Development
- Tiered Help Desk Services

Solution Engineering and Delivery

- DevSecOps and Agile Application Development and Delivery
- Data Management
- System Engineering and Delivery (incl. C5 Systems)
- Enterprise Application and Data Integration
- System and Network Integration
- Microservices Architecture
- Containerization
- Hybrid Cloud Services/Cloud Migration
- System Modernization

Healthcare IT Solutions

- Clinical System Lifecycle Management Support
- IT and Medical System Integration
- DevSecOps Engineering and Buildout
- COVID-19 Systems Development & Tracking
- 7x24 IT Operational Support for Patient Care
- 7x24 NOC & SOC Operations
- HIPAA-Compliant Information Security
- Healthcare Benefit Provisioning

Strategic Business and Innovation Consulting

- Business Needs Assessments
- Enterprise Architecture Design
- Performance & Portfolio Management
- Strategy Consulting
- Risk Assessment and Management

AWARDS
