## FOR IMMEDIATE RELEASE

### SuprTEK Awarded DISA SETI IDIQ Contract

ASHBURN, VA –September 25, 2020 – Superlative Technologies, Inc. (dba SuprTEK) is proud to announce that we have been awarded a contract under the Defense Information Systems Agency's (DISA) Systems Engineering, Technology & Innovation (SETI) Multiple-Award Contract (MAC). SETI is a ten-year (five-year base and one five-year option period), \$7.5 billion indefinite-delivery, indefinite-quantity (IDIQ) contract that will assist the Department of Defense (DoD), DISA, and mission partners to fulfill their mission.

SETI is a hybrid (fixed-price, time-and-materials, and cost-reimbursement) contract offering an array of research and development, and critical technical disciplines core to engineering, delivering, and maintaining DoD and DISA IT products and capabilities. It encompasses legacy, current, and future DoD and DISA capabilities, services, systems, and systems-of-systems (SoS) throughout the acquisition and systems engineering lifecycle. SETI spans the entire spectrum of DISA mission areas supported by the various Combatant Commands, Services, Agencies (CC/S/As) and DISA Directorates and Offices. The services and solutions included in this IDIQ will fall under the following task areas: Systems Engineering; Design Analysis Engineering; Systems Architecture; Software Systems Design and Development; Systems Integration; Systems Test and Evaluation; Systems Deployment and Life-cycle Engineering; and Special Systems Engineering Requirements.

“SuprTEK is proud to serve and support DISA and the DoD through ‘Exceptional Solutions with Proven Results’ such as our experience with the architecture, design, build and implementation of many DoD-wide systems including Computer Network Defense (CND) systems with 13 prime DISA contracts during the last decade,” said Brandon Park, CEO of SuprTEK. “We look forward to supporting this contract vehicle to continue providing exceptional, cost-effective solutions as a partner for mission support to DISA.”

### About SuprTEK

Since 1996, SuprTEK has performed exceptionally on a multitude of contracts including fully-managed IT outsourcing efforts. SuprTEK is an ISO 9001:2015, ISO 20000, and ISO 27001 registered, CMMI Level 3 appraised, quality-focused organization that embraces process best practices such as the Information Technology Infrastructure Library (ITIL) and Development, Security and Operations (DevSecOps).
